

How to work with Koolfoam EPS

(Expanded PolyStyrene)

How much EPS do I need?

Koolfoam manufacture blocks and sheets; our standard sheet size 2500 X 1200 X 25mm. We offer free delivery on orders over \$300 in the Brisbane metro area and can arrange delivery to Gold and Sunshine Coasts.

We can cut special shapes too if you need them eg large cutout letters and numbers.

Contact Koolfoam's experienced staff and we'll work it out for you!

How do I cut and shape EPS?

You can use a serrated kitchen knife or fine wood saw but hot wire is the most effective.

We can cut sheets to whatever size and shape you need.

Just ask us.

What adhesives can I use?

There are a variety of adhesives that are suitable for glueing polystyrene depending on the application eg this spray adhesive works well.

If you're not sure call Koolfoam to check.

What paint should I use?

Acrylic and latex paints are most suitable for polystyrene. Solvent and oil based paints may "melt" the surface and are not recommended.

How do I recycle EPS?

Don't send your polystyrene offcuts, trimmings and excess packaging to landfill, send it to Koolfoam. Koolfoam can recycle it into beanbag fill, regran for packaging or potting mix.

Not sure? Call Koolfoam for advice.
